Cardiac Support Group

Dear Members and Friends

August 2020

Welcome to my August newsletter, I hope that all of the group members who have missed going away due to the virus will be able to make up for it later in the year, again I hope you are all staying well and safe, again I am pleased to say my family are all well.

I would like to thank all the group members who sent Maureen and myself best wishes and congratulations on us reaching our 60th wedding anniversary on August 6th we are proud to be associated with such wonderful people (well done and thank you).

I have some sad news to report our good friends Ann and Martin Showler informed me of the death of new member Jean Gautier who I believe passed away in March from a non virus related illness; I will give more information about Jean when I can.

I have been informed that Vision has withdrawn our contract for the library which will be under review soon and we will try to stay in the Barkingside library, I hope to learn more about this important contract. I would like to add the group committee are deeply concerned about the welfare of the King of Hearts.

I will sign off now so that Durham and Peter can get this letter out to you all, so I wish you all my very best wishes, please beware of bogus utility officials, and as usual please keep safe.

Regards

Henry Phillips Chairman

The Balloonist

A man in a hot air balloon realised he was lost. He reduced altitude and spotted a woman below. He descended a bit more and shouted. Excuse me, can you help me? I promised a friend I would meet him an hour ago. But I don't know where I am.

The ground. You're between 40 and 41 degrees north. Latitude between 59 and 60 degrees west longitude.

'You must be in IT' said the balloonist.

I am, replied the woman, how did you know?

Well answered the balloonist everything you told me is technically correct, but I've no idea what to make of your information and the fact is I'm still lost. Frankly, you've not been much help at all. If anything you've delayed my trip.

The woman below responded. You must be in management.

I am replied the balloonist.

Well said the woman, you don't know where you are or where you're going. You have risen to where you are due to a large quantity of hot air.

You made a promise, which you've no idea how to keep, and you expect people beneath you to solve your problems.

The fact is you are in exactly the same position you were in before we met, but now, somehow it's my fault.

Thanks to Eric Simmonds who supplied this item
