COMING SOON

Dear Members and Friends February 2021

Welcome to my February 2021 newsletter, this is my second newsletter in 2021 and we are still in the grip of this dreadful virus which is making the current lockdown more important for us to pay attention to what the academics are telling us. I hope that most of our members have received their first injection and looking forward to the second.

I am afraid that news of the club getting back to normal is at the moment unavailable but when we find out what is happening we will make you all aware of the situation by post and email.

I am pleased to say that my good friend Eric is back home after his stay in Whipps Cross hospital, and I have spoken to him recently and he sounds chirpy and bright long may it last.

It is regret that my newsletter this month will be fairly short due to lack of information regarding the club, but as I have stated we will inform you all when we get any positive news.

I will get this letter off to Durham and Peter so that they can produce a copy out to you all. I would like to wish you my entire very best try and keep warm, and may I remind you all to stay within the government guide lines, also please be stay well and safe.

Regards
Henry Phillips Chairman

I recently saw distraught young lady weeping beside her car.
Do you need some help I asked?
She replied, I knew I should have replaced the battery to this remote door unlocker.
Now I cannot get into my car. Do you think them (pointing to a distant convenience store)
Would have a battery to fit this?
Mmmm, I don't know. Do you have an alarm, too I asked.
No, just this remote thingy she answered, handing it and the car keys to me
As I took the key and manually unlocked the door,
I replied,
Why don't you drive over there and check about the batteries. It's a long way to walk.

Several years ago, we had an intern who was none too swift. One day she was typing and turned to a secretary and said, I'm almost out of typing paper, what do I do?
Just use paper from the photocopier, the secretary told her. With that, the intern took her last remaining blank piece of paper, put it on the photocopier and proceeded to make five blank copies.

Mother calls 999 very worried asking the operator if she needs to take her child to the emergency hospital the child has eaten ants.
The operator tells her to give her child some Benadryl and she should be fine, but the mother says, I've just given her some ant killer.
The operator. Rush her to the hospital immediately.

Life is tough. It's even tougher if you're stupid!!!
